Last updated: May 11th, 2026

EDUCATION

Bachelor of Economics, University of São Paulo (USP) 2025
Best GPA and best senior thesis awards among ~150 graduating economics students.

RESEARCH

How Adaptable Are American Workers to AI-Induced Job Displacement? *NBER Volume: Economics of Transformative AI*

S. Manning (GovAI) and **T. Aguirre**. Companion report at the Brookings Institution. Covered in The Washington Post, The Economist, and the Financial Times.

AI-Assisted Teams Outperform AI-Led Teams but Not Human-Only Teams in Assessing Research Reproducibility in Quantitative Social Science *Forthcoming at the Proceedings of the National Academy of Sciences (PNAS)*

A. Brodeur (University of Ottawa) et al. (large-scale collaboration)

Economic Evaluations of Language Models

Under review at NeurIPS

A. Wan (Stanford), S. Hatgis-Kessell* (Stanford), **T. Aguirre***, P. Liang (Stanford), and R. Bommasani (Stanford).

*Equal contribution.

The Jagged Global Economy: Frontier AI Unevenly Exposes National Economies

Under review at NeurIPS

A. Murugan (UC Berkeley), **T. Aguirre**, A. Nagaraj (UC Berkeley), and R. Bommasani (Stanford).

On Labs and Fabs: How Alliances, Acquisitions, and Antitrust are Shaping the Frontier AI Industry *arXiv preprint*, 2024

T. Aguirre. Cited in the International AI Safety Report 2025.

Early Labor Market Responses to Generative AI in a Developing Country: Evidence from Brazil *Draft available upon request*

T. Aguirre and L. Meloni (USP)

RESEARCH EXPERIENCE

Research Assistant, Centre for the Governance of AI

May 2024 - Present

Adviser: Sam Manning (Senior Research Fellow). Summer Research Fellow in London (2025). Published NBER paper on adaptive capacity of American workers to potential AI-induced displacement, with companion Brookings report. Researched AI adoption measurement approaches in the US workforce to inform government and industry data tracking efforts. Collaborating on projects led by Rishi Bommasani (Senior Research Scholar, Stanford HAI) on open-source measures of AI applicability across economic tasks.

Research Assistant, Cambridge Boston Alignment Initiative

Oct 2023 - Mar 2024

Adviser: Charlotte Siegmann (MIT Economics PhD student). Analyzed antitrust implications of the AI supply chain market structure.

Summer Fellow, Pivotal Research

Jul 2023 - Aug 2023

Selected as one of 13 fellows from over 500 applicants; authored report on AI supply chain integration, mentored by Charlotte Siegmann (MIT Economics PhD student) and Andrew Koh.

Research Assistant in Economic History, USP

Jan 2023 - Jun 2024

RA to Prof. Renato Colistete and Rafael Cariello. Built machine learning pipeline to transcribe 19th-century export data (funded by Brazil's national research agency, CNPq).

Research Assistant in Industrial Organization, USP

Mar 2020 - Jul 2021

RA to Prof. Claudio Lucinda. Researched petrochemical market concentration (CNPq scholarship) and electric sector regulation (contractor for consulting firm i4).

OTHER PROFESSIONAL EXPERIENCE

AI Engineer, Palver	May 2023 - Oct 2024
Led AI development projects at an early-stage Brazilian startup. Built machine learning models for news classification and public discourse tracking.	
Summer Intern, Giant Steps Capital	Jan 2022 - Apr 2022
Worked on updates of machine learning pipeline which orchestrated automated testing of new models at the largest Latin American quantitative hedge fund.	

SKILLS

Programming	Python, R, Stata (<i>in descending order of experience</i>)
AI & DS	PyTorch, Pandas, Numpy, Matplotlib, Seaborn, Scikit-learn
Other Tech	LaTeX/Overleaf, Git/GitHub
Languages	Portuguese (native), English (fluent), Spanish (basic)

REFEREEING

International Association for Safe and Ethical AI (IASEAI) conference, Paris (area: Future of Work and Education)	2026
---	------

SERVICE

Member of the Executive Board, International Economics Olympiad	2022 - 2025
Elected to the IEO Executive Board as former silver medalist and trainer of three world-champion Brazilian teams. The board oversees competition organization and long-term policies.	
Member of the Organizing Committee, Brazilian Economics Olympiad	2020 - 2022
Coordinated Academic Sector, managed test development, and led Communication Working Group. Helped increase participation by +50% year-over-year.	

AWARDS AND GRANTS

Best GPA and best senior thesis (Prêmio Luiz de Freitas Bueno) among ~150 graduating economics students, University of São Paulo	2025
Leader of the Brazilian delegation at the 4 th International Economics Olympiad (1 st place among 44 participating countries)	2021
~4,000 USD SempreFEA Endowment Association grant for Brazilian Economics Olympiad’s Communication Working Group	2021
Scientific initiation scholarship from Brazil’s National Council for Scientific and Technological Development	2020
Silver Medal at the 1 st International Economics Olympiad	2018
1 st place among ~2,000 participants in the 1 st Brazilian Economics Olympiad	2018

OTHER SELECTED ACTIVITIES

Invited speaker at the NBER Workshop on the Economics of Artificial Intelligence as co-author of volume chapter, at Stanford University	2025
Selected participant for the Economics of Transformative AI summer course, at Stanford University	2025
Teaching Assistant for Prof. Marcos Fernandes in Mathematics Applied to Economics (undergraduate course)	2025
Teaching Assistant for ML4Good Brazil 2024 (10-day AI safety bootcamp for South American participants)	2024
Quantitative Economics Workshop participant at CREST, Polytechnic Institute of Paris	2022
Student of Real Analysis and Introduction to Mathematical Economics summer courses at IMPA (Instituto de Matemática Pura e Aplicada)	2021
